

## 2014 - 2020 Structural Funds eligibility-Comparison of reference periods

The regional GDP of the year 2015 at NUTS2 level was published by Eurostat on 30 march 2017. Below is a comparison between average GDP of the years 2007, 2008 and 2009 used to determine the structural funds eligibility in the three categories of regions (Less Developed Regions LDR, Transition and More Developed Regions MDR) and an eligibility simulation redefining in which category the regions could be if the more recent data published are used.

### 1- Regions which would change eligibility if the more recent three years average GDP
